Your historic pronouncement last night was a proud call to people of courage and good will to unite in *Freedom's Cause*.

Mr. President, we are with you in this crusade. The Legion for American Unity speaks to you in the composite voice of thirty million naturalized and first generation Americans of every racial strain. Our answer to your call, Mr. President, is—"WE ARE WITH YOU."

Mr. President, once more we pledge to you and to America, in the words of the immortal Declaration of Independence, "*our lives, our fortunes, and our sacred honor*" so that freedom and liberty will triumph over tyranny and dictatorship. We are the new Americans, Mr. President, but we remember the sacrifice and valor of the *first* Americans in their heroic struggle for human freedom. We remember what Patrick Henry said:

"The battle is to the vigilant, the active and the brave Gentlemen may cry 'peace, peace' but there is no peace Our brethren are already in the field. Why stand we here idle?"

LEAD THE WAY, MR. PRESIDENT. WE SHALL NOT STAND HERE IDLE

We would rather die fighting the brutalitarian forces of totalitarianism than live enslaved in a world dominated by those forces.

We are with you, Mr. President, united with all other loyal Americans, in your Crusade for Freedom.
