## TASK FORCE ON MILITARY ENGAGEMENT

### **University Hearings Discussion Themes**

While the Task Force hopes to create an environment of open discussion and free expression of opinion, a certain level of structure is necessary to allow for a successful hearing. To this end, please relate your comments to one of the following broad themes:

- Have recent events shifted your opinion of ROTC or the military?
- Should Columbia revisit its relationship with ROTC?
- Is Columbia's relationship with ROTC and the military an issue of institutional concern?
- How does a Columbia education relate to ROTC?
- Should current ROTC cadets be able to draw more heavily on University resources?
- Is there a relationship between military engagement and Columbia's identity?

Thank you very much for your participation.
