

Q & A:

For an answer to the question on whether a surgeon can continue to perform surgery if he/she tests positive for HBV and HCV, see

http://www.facs.org/fellows_info/statements/st-22.html

You will appreciate the relevance of HBeAg levels as you read this.

On http://www.facs.org/fellows_info/statements/st-13.html you will find the College's recommendations for surgeons with HIV.
